Message from Editor

Dear Readers,

It is the great honor for us to publish sixth volume, first issue of Global Journal of Computer Sciences: Theory and Research.

Global Journal of Computer Sciences: Theory and Research is an international online journal for scientists and professionals involved in all aspects of computer sciences. This journal serves as an international platform that fosters theoretical and practical issues and new applications for all scientists and professionals from the field of computer sciences including original research and innovative applications from all parts of the world.

Global Journal of Computer Sciences: Theory and Research is a double-blind peer-reviewed journal that publishes original theoretical and applied papers on all aspects regarding computer sciences. It is intended to be a multi-disciplinary international journal aimed at revealing results of research on computer sciences.

Computer-related achievement, anxiety and attitude and messaging and presence protocol's adaptation to business applications topics have been included into this issue. The topics of the next issue will be different. You can make sure that we will be trying to serve you with our journal with a rich knowledge in which different kinds of topics are discussed in 2016 Volume.

A total number of eight (8) manuscripts were submitted for this issue and each paper has been subjected to double-blind peer review process by the reviewers specialized in the related field. At the end of the review process, a total number of two (2) high quality research papers were selected and accepted for publication.

We present many thanks to all the contributors who helped us to publish this issue.

Best regards,

Prof. Dr. Dogan Ibrahim

Editor – in Chief
