

MESSAGE FROM EDITOR

2022 Year promises many exciting developments for the Global Journal of Information Technology: Emerging Technologies (GJIT). In addition, every year the number of citations continues to rise strongly in proportion to the increase as articles become more and more popular. In this respect, first of all, we would like to thank all our authors who supported the success of our journal. While reviewing our new issue, we saw articles from different authors by different authors: Albania, Saudi Arabia etc.

The multiculturalism policy followed in our globally focused journal makes us happy in every new issue. When we examine the following research areas in the current issue; The topics of " *E-voting, a proposed framework for Albania scenario*", "*Kiddo: Design and Prototype of a Useable Mobile Application for Kids to Learn Under Parental Control*", "*Core Banking System Implementation Proposal*". We will continue to contribute to the literature within the scope of Educational Technologies with our strong team. Thanks to all our authors the contributors in this issue.

Hope to see you in our new issue.

Asist. Prof. Dr. Ezgi Pelin YILDIZ

Global Journal of Information Technology: Emerging Technologies (GJIT) CHEF EDITOR
